DETAILED ACTION

This action is in response to the response filed on 8 May 2007 in which claims 1-38, and 40 are pending, and claim 37 is cancelled.

Election/Restrictions

Applicant's election without traverse of **Group I, Species I, Claims 1, 2, 3, 5, 7, 10-20, 25-26, 34, 36, 38 (Figure 4)** is acknowledged.

Claims 4, 6 (depends on claim 4), 8-9 (depends on claim 4), 21-24, 27-33, 35, 37, and 39-40 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group and Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 20 November 20, 2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 ^{is} rejected under 35 U.S.C. 102(b) as being anticipated by Kotsianas et al (U.S.

Patent No. 5,898,244).

Regarding claim 1, Kotsianas teaches a linear actuator comprising a core (16) having a longitudinal axis; a coil (14) shaped for movement along the longitudinal axis of the core; and a

Art Unit: 2614

magnet structure (12, 18) positioned along the longitudinal axis of the core; wherein the core includes first and second portions, each including an end face (near 66, 72) and a cavity (at 66, 72 relative to core 16) having an axis of symmetry along the longitudinal axis of the core, and further wherein the first and second portions are positioned so that the end faces oppose each other and are separated by a gap (62).

Regarding claim 2, Kotsianas teaches the linear actuator of claim 1, further including a housing (58, 60) supported by core flanges and positioned about the coil and the core.

Allowable Subject Matter

Claims 34, 36, and 38 are allowed.

Claims 3, 5, 7, 10-20, 25-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1, 2, 3, 5, 7, 10-20, 25-26, 34, 36, 38 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2614

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
